

## Correction to Results of Scheme Meeting

2 December 2013

Perilya notes that its announcement of this morning outlining the results of its Scheme Meeting contained an error. That announcement incorrectly referred to:

*"The resolution to approve the Scheme was passed at today's Scheme Meeting by the following majorities:*

*- 96.86% of votes cast in favour of the resolution; and*

*- **3.14%** of the number of shareholders voting (either in person or by proxy) in favour of the resolution."*

The reference to 3.14% of shareholders by number (highlighted above) is incorrect and should have read:

*"**82.67%** of the number of shareholders voting (either in person or by proxy) in favour of the resolution"*

A full copy of the amended announcement is attached.

Perilya apologises for any confusion as a result of its earlier incorrect announcement.

Yours faithfully

## About Perilya

*Perilya is an Australian base and precious metals mining and exploration company, which owns and operates the iconic Broken Hill zinc, lead, silver mine in NSW Australia and, with the successful takeover of GlobeStar Mining Corporation in December 2010, the Cerro de Maimón copper, gold & silver mine in the Dominican Republic. The Company's operations at the Broken Hill mine went through a resizing in 2008 which has resulted in significant improvement in productivity, profitability and cashflows resulting in an extension to the life of mine to approximately 10 years.*

*In addition to its mining operations, the Company has an active exploration and development program which includes exploration and development programs in the Broken Hill region NSW Australia and in the Flinders region of South Australia in the vicinity of its Beltana zinc silicate project. The Company also has extensive exploration programs underway on its Dominican Republic mining and exploration concessions that include a laterite nickel project and highly prospective copper, gold & silver targets near its Cerro de Maimón mine.*

*The Company is reviewing options for the development of the Mount Oxide Copper Project in the Mount Isa region in Queensland. In addition, the Company has a 60% interest in the Moblan lithium project located in Quebec, Canada, which is currently undergoing a development study (the remaining 40% is held by SOQUEM, which is an investment company owned by the Quebec Government in Canada).*

*Perilya is owned 53.37% by Shenzhen Zhongjin Lingnan Nonfermet Co. Ltd, China's third largest zinc producer.*
